## EFFICIENT TRANSPORT TAXES AND CHARGES

### TABLE OF CONTENTS

#### **Conclusions and Recommendations**

#### **Glossary**

#### **French/English Terms**

#### **Introduction**

#### **1. Principles for Efficient Taxation**

- 1.1 Efficient Taxation
- 1.2 Inter-modal Distorsions

#### **2. Summary of the Calculations and Main Results**

- 2.1 Absolute Levels of Charges
- 2.2 Net Taxation
- 2.3 Effective Tax Rates on the Marginal Cost of Producing Freight Transport by Road (METRs)
- 2.4 The Impact of Taxation on Competitiveness
- 2.5 Transfers with Respect to Capital Infrastructure Costs (Book Transfers) and to Full Social Costs
- 2.6 Use of the Indicators Developed

**3. Absolute Levels of Specific Charges and Corresponding Fiscal Patterns**

- 3.1 Methodological Stages
- 3.2 Results
- 3.3 Conclusions

**4. Net Taxation of Road Haulage and Corresponding Country -- and Flag-related Territorial Patterns**

- 4.1 Methodological Stages
- 4.2 Results Based on Standard Scenarios by Country
- 4.3 Results Based on International Scenarios by Flag
- 4.4 Conclusions

**5. Examining Net Taxation for Pairs of Flags**

- 5.1 Comparison between UK and French Flags
- 5.2 Overall Results

**6. Effective Tax Rates on the Marginal Cost of Production of Road Freight Transport (METR)**

- 6.1 Methodological Stages
- 6.2 Results: Country Specific METRs (Standard Haulage Scenarios by Country)
- 6.3 Results: Flag Specific METRs (Haulage Scenarios by Flag)
- 6.4 Conclusions

**7. Marginal Effective Taxation Rates and Competitiveness**

**8. Transfers with Respect to Government Infrastructure Accounts (Book Transfers) and Full Social Costs**

- 8.1 Methodological Stages
- 8.2 Results Comparison with Efficient Taxation Benchmark Value

**Annex**

**Resolution 2000/3 on Charges and Taxes in Transport**
